	A	B	C	D	E
1	Field	Value			
2	Bug ID	001			
3	Title	No validation date - can roll back date to 10000			
4	Severity	Medium			
5	Priority	High			
6	Environment	Device: iPhone 13 Pro App version: v 1.0.3 OS version: iOS 18.4.1			
7	Preconditions	The user has an account and is listed in the app (data exam is available for editing)			
8	Steps to Reproduce	1. Log in to the App 2. Click on the settings icon , edit the exam date 3. Select the date 06.06.8867			
9	Actual Result	The date 06.06.8867 is saved without errors and displayed in the profile			
10	Expected Result	The app should limit the date selection section and show an error message (for example, allow only dates up to 2030)			
11	Attachments				
12	Comment	The app allows you to save an unrealistic date, which can break the logic of the app or open bugs in other modules.
